

I am writing to express my concern with the new broadcast service know as Low Power FM (LPFM) with regards to AIR 1 radio. I believe AIR 1 to be a powerful addition to our local community, bringing family friendly programming and great music 24 hours a day. The station provides hope and an uplifting message to everyone in our community. If by chance AIR 1 was displaced by a LPFM broadcaster we as a local community would be losing a great service. The station has an enormous effect on the quality of broadcasting in our area. AIR 1 provides music, news and special commentary as well as outreach programs for community members in need. The station helps the homeless, the drug abusers and everyone else who might be down on their luck, thus providing an irreplaceable service to the public interest. In conclusion, replacing AIR 1 with a LPFM station would severely hurt the local community and the public interest, please do not let this happen. Please feel free to contact me through email with any further questions or comments, thank you.

Sincerely,
Jesse Walker
